Monzur Elahi Shamim

Dhaka, Bangladesh | +8801689668426 | monzur.elahi.shamim@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

- DevOps Engineer specializing in **automation, PostgreSQL HA, and secure infrastructure deployment**
- Experienced in deploying production systems in **banking** and **cloud environments** with strong **security controls**
- Proven ability to **reduce manual operations through automation and improve system reliability**
- Strong focus on **CI/CD, observability, and infrastructure hardening**.

Work Experience

DevOps Engineer — SSCL ***Oct 2025 – Present***

- Built a **Bash-based server provisioning tool** → reduced manual setup effort by ~70% and ensured standardized security hardening
- Automated **security auditing & reporting**, improving compliance visibility across environments
- Deployed applications in **banking and cloud environments**, ensuring secure and stable production releases
- Implemented **PostgreSQL HA (Patroni)** → improved database availability and failover reliability
- Designed **GitLab CI/CD pipelines** → reduced deployment time by ~60%
- Implemented **monitoring stack (Uptime Kuma, Beszel)** → reduced incident detection time, improved system observability and incident response
- Secured NGINX with **Fail2Ban**, mitigating brute-force and unauthorized access attempts

Intern DevOps & Data Platform Engineer — *Datafluent BD* ***Jan'25 – Jun'25***

- Administered **PostgreSQL** (roles, tuning, extensions) → improved reliability and performance
- Migrated workloads to **OCI** with minimal downtime → ensured service continuity
- Containerized applications using **Docker** → improved deployment consistency
- Installed and upgraded **Oracle Database 12c** → **Oracle Database 19c** on OEL 7.9
- Designed **CDB and non-CDB architectures** → supported flexible deployments
- Enabled **Archivelog, Flashback, and FDA** → ensured recovery and CDC capability
- Configured **OpenBao** DB Secrets Engine for PostgreSQL → secured credential management

Skill

Technical Skills

- **Cloud:** AWS (EC2, S3, IAM, ECR), Oracle Cloud (OCI)
- **Containerization:** Docker, Kubernetes (basic hands-on)
- **Databases:** PostgreSQL, Redis/Valkey, Oracle DB, MySQL
- **Infrastructure as Code:** Ansible, Terraform (basic)
- **Scripting & Programming:** Bash, Python (basic), Java
- **Version Control:** Git, GitHub, GitLab
- **CI/CD:** GitHub Actions, GitLab CI
- **Networking:** TCP/IP, HTTP/HTTPS, SSL/TLS, DNS, Firewalls, iptables, Load Balancing, Reverse Proxy, IP addressing, CCNA (fundamentals)
- **Security Tools:** Trivy, SonarQube, Fail2Ban
- **Other Tools:** NGINX, Cloudflare, Uptime Kuma, Beszel

Soft Skills

- Problem-Solving & Troubleshooting
- Collaboration & Communication
- Adaptability & Quick Learning
- Time Management & Prioritization
- Attention to Detail
- Ownership & Accountability

Projects

Portfolio Website – GitHub | Live Site

- Customized and deployed a portfolio website built with **Lovable**.
- **Containerized** the application with **Docker** and deployed to **AWS EC2** for production hosting.
- Automated builds and deployments with **GitHub Actions CI/CD**.

Paperless Office System – GitHub

- Developed a **desktop-based document management system** using **Java Swing**.
- Provided features for **user authentication, document storage, categorization, and search**.
- Designed to replace traditional paper-based workflows with a **digital, efficient solution**.

Education

BSc. in Information and Communication Engineering **CGPA**: 3.29/4.00 | Dec 2018 – Jun 2024
Noakhali Science and Technology University (NSTU)

Certifications

- KodeKloud: GitLab CICD
- KodeKloud: Nginx
- Problem Solving
- Cisco NDG Linux Essentials
- KodeKloud: Git (level 1&2)
- KodeKloud: Ansible (level 1&2)
- SQL (1, 2)
- Java

Additional Information

- **Languages:** English - Fluent or Comfortable, Bengali - native
